Shelly Blu RC Button 4 Zb

Device identification

- Device name: **Shelly BLU RC Button 4 ZB**
- Device model: **SBBT-104CUS**
- Device Bluetooth ID: **0x0016**

Short description

Shelly BLU RC Button 4 ZB (the Device) is a smart four-button Bluetooth and Zigbee remote control interface. It features long battery life, multi-click control, and strong encryption. The Device has in-built magnets and a magnetic holder included in the package providing users with versatile placement and usage options.

Main features

- Long battery life
- Supports multi-click
- Compact size, portability, and ease of use
- Strong encryption
- Variety of placement and usage options

Use cases

- **Lighting control:** Assign the button to control specific lighting scenes or individual smart lights. For example, a single press could turn on/off the lights, while a long-term press could dim or brighten them.

- **Garage door opener:** Use the strong encryption of Shelly BLU RC Button 4 ZB and control your smart garage door opener as you approach or leave your garage.
- **Smart blinds or curtains:** Open or close motorized blinds or curtain at the touch of a button.
- **Location-based automation:** Set the device in Beacon mode so that to trigger specific actions when you come within Bluetooth range. Use the Device for presence control, for example to keep lights on while you need to spend some time in a certain area.
- **Scene control:** Use the 4 buttons to activate any scene or specific actions you can imagine. Each button supports single, double, triple and long push - which allows the user to make 16 different actions!

Connectivity

- Bluetooth
- Zigbee

User interface

Inputs

- Four push buttons
 - To enter Bluetooth pairing mode:
 - Press any of the buttons 4 times. The LED starts flashing in blue and the Device enters Bluetooth pairing for one minute.
 - To enter Zigbee pairing mode:
 - Press any of the buttons 5 times. The LED starts flashing in purple and the Device enters Zigbee commissioning mode for one minute.
 - Factory reset
 - Press and hold any button for 30 sec to factory reset (possible only shortly after inserting the battery).

Outputs

- LED indication
 - Blue light flashing when the Device is in Bluetooth pairing mode.
 - Purple light flashing when the Device is in Zigbee pairing mode.
 - Green light flashing when a button is pressed shortly. The number of flashes corresponds to the number of the button presses.
 - Yellow light flashing on long press.
