! Die einschlägigen Verarbeitungsrichtlinien aller beteiligten Gewerke sowie die Montage- und Sicherheitshinweise des erforderlichen Zubehörs sind zu berücksichtigen.

! Für den Einbau des Wannenträgers muss ein ebener, sauberer, tragfähiger, und schwingungsfreier Untergrund vorhanden sein.

! Bei Arbeiten mit Wannenträger Montageschaum sind die Verarbeitungshinweise zu beachten.
Achtung: Zündquellen vom Montageschaum fernhalten und nicht rauchen. Treibgase vor Setzen des Wannenträgers gut ablüften lassen.

! **Achtung: Bei der Prüfung im Revisions-schacht Zündquellen fernhalten und nicht rauchen.**

! The relevant working guidelines of all the trades involved as well as the assembly and safety instructions for the required accessories shall be observed.

! The tub supporting frame must be mounted on a plane, clean, load-bearing and vibration-free surface.

! When working with supporting frame mounting foam, the working instructions shall be observed.
Warning: Keep mounting foam away from ignition sources and do not smoke. Thoroughly ventilate propellants before installing the supporting frame.

! **Warning: When checking the inspection chamber, do not use ignition sources and do not smoke.**

! Rekening houden met de verwerkingsrichtlijnen van alle betrokken leveranciers en de montage- en veiligheidsinstructies voor de vereiste accessoires.

! Voor montage van de kuipdrager moet een vlakke, schone en zonder vibratie dragende ondergrond aanwezig zijn.

! Bij werken met badkuipdragermontageschuim op de toepassingsrichtlijnen letten.
Let op: montageschuim uit de buurt van ontstekingsbronnen houden en niet roken! Vóór plaatsing van de drager drijf-gassen goed laten ontluchten.

! **Let op: tijdens de controle door de revisie-opening ontstekingsbronnen uit de buurt houden en niet roken!**

! Les instructions correspondantes de mise en œuvre de tous les métiers participants ainsi que les instructions d'installation et de sécurité des accessoires requis doivent être respectées.

! Pour le montage du support de baignoire, il est nécessaire d'avoir une surface plane, propre, stable, exempte de vibrations.

! Lors de travaux avec de la mousse de montage pour supports de baignoires, il faut respecter les instructions de mise en oeuvre.
Attention: éviter la présence de sources inflammables à proximité de la mousse de montage et ne pas fumer. Avant de poser le support de baignoire, laisser s'évacuer les gaz propulseurs.

! **Attention: Lors de contrôles dans le regard d'égout, éloigner les sources inflammables et ne pas fumer.**

! Si devono osservare le istruzioni corrispondenti di lavorazione di tutti i mestieri partecipanti, così come le indicazioni inerenti il montaggio e la sicurezza degli accessori necessari.

! Per il montaggio del supporto di vasca è necessario d'avere una superficie piana, pulita, stabile, esente da vibrazioni.

! Per lavori con schiuma di montaggio per supporti di vasca, si deve osservare le istruzioni di lavorazione.
Attenzione: Evitare la presenza di fonti infiammabili in prossimità della schiuma di montaggio e non fumare. Lasciar evacuare gas propellenti prima di posare il supporto di vasca.

! **Attenzione: Durante controlli nel pozzetto d'ispezione evitare la presenza di fonti infiammabili e non fumare.**
