VORSCHLÄGE FÜR DAS FUNDAMENT

Bitte achten Sie bei der Fundamentgestaltung darauf, dass Niederschlagswasser nicht seitlich unter den Bodenprofilen in das Gerätehaus eindringen kann! Aufsteigende Bodenfeuchtigkeit und Kondensation vermeiden Sie mittels einer starken Kunststoffolie unter dem Fundament.

- (GB)** Proposals for a secure foundation: When making the foundation arrangements please take necessary precaution to ensure that water cannot leak in under the floor profiles. Rising ground moisture and condensation can be avoided by using a strong plastic sheet underneath the paving slabs or underneath the concrete foundation.
- (FR)** Conseils pour les fondations: Lors de la réalisation de la fondation, veillez à ce que l'eau de pluie ne puisse pas pénétrer dans l'abri ou par les côtés sous les profils de sol. Vous pouvez éviter l'humidité du sol et la condensation en mettant un film plastique épais sous les plaques de béton.
- (NL)** Voorstellen voor fundament : Let er bij het maken van de fundering op dat regenwater niet onder het bodemprofiel kan doorlopen. Een vochtige bodem en condensatie kunt u vermijden door het aanbrengen van een sterke kunststofolie onder de tegels of het betonfundament.
- (ES)** Medidas y recomendaciones para los cimientos: Al colocar los cimientos, asegúrese de que el agua de lluvia no puede penetrar en la caseta por los laterales debajo del perfil del suelo. Evite la humedad y la condensación en el suelo colocando una lámina de plástico bajo las losas o los cimientos de hormigón.
- (IT)** Proposte per il basamento: Il basamento deve essere progettato in modo da evitare infiltrazioni di acqua piovana all'interno della casetta. Un telo di plastica spesso posto in corrispondenza dell'area di pavimento evita infiltrazioni di umidità dal terreno e la formazione di condensa.
- (DK)** Forslag til sikkert fundament: Ved etablering af fundament skal du tage de nødvendige forholdsregler for at sikre, at vand ikke kan sive ind under gulvprofilerne. Stigende fugt og kondens i jorden kan undgås ved at bruge plastik under flisebelægningen eller under betonfundamentet:
