The diagram shows a street lamp on the left and a detailed view of its electrical connection on the right. The lamp has a tall pole and a hexagonal lantern head. A label 'F' is at the base of the pole. The detailed view on the right, enclosed in a dashed circle, shows the lamp's base connected to a wall. A switch labeled 'A' is on the wall, and a fuse box labeled 'F' is below it. A double-headed arrow indicates the connection between the lamp base and the fuse box.
