EN

The golden rules for care

NOTE: Use warm soapy water and a soft damp cloth to keep the glass clean. Wipe dry with a clean cloth. Glass cleaner can be used if required. Scourers, abrasives and chemical cleaners can damage the glass and pattern, and should not be used.

In hard water areas, insoluble lime salts may be deposited on the glass. If this is allowed to build up it becomes increasingly difficult to remove and looks unsightly. Regular cleaning will minimize this effect.

- ☒ Do not attempt to cut the glass.
- ☒ Do not strike the glass with hard or pointed items.
- ☒ Regularly check moving parts such as rollers and hinges to ensure they are secure and adjusted correctly. Tighten and adjust where required. Also check all sealed joints to ensure seal has not deteriorated. Re-seal if required.

DE

Die goldenen Regeln der Pflege

HINWEIS: Zum Reinigen des Glases warme Seifenlauge und einen weichen, feuchten Lappen benutzen. Mit einem trockenen Lappen trockenwischen. Bei Bedarf kann Glasreiniger verwendet werden. Scheuerschwämme, Scheuermittel und chemische Reiniger können das Glas und die Musterung angreifen und sollten daher nicht benutzt werden.

In Gebieten mit hartem Wasser können sich Kalkablagerungen am Glas bilden. Wenn diese nicht beseitigt werden und sich immer weiter Kalk ablagert, wird es umso schwieriger, die Kalkreste zu entfernen. Nach einiger Zeit wirken diese verkalkten Stellen unansehnlich. Durch regelmäßiges Reinigen kann dem vorgebeugt werden.

- ☒ Nicht das Glas anschneiden.
- ☒ Nicht mit harten oder spitzen Gegenständen gegen das Glas stoßen.
- ☒ Bewegliche Teile wie Rollen und Scharniere regelmäßig auf festen Sitz und richtige Justage überprüfen. Ggf. nachstellen und nachziehen. Außerdem alle versiegelten Übergänge prüfen, um festzustellen, ob die Dichtungen noch intakt sind. Ggf. nachdichten.
