# Remote Control Instruction

## 1.REMOTE CONTROL

The remote control included with the lamp is already connect and ready to use once the battery are installed

### Simplified Declaration of Conformity:

Hereby, fittinQ BV declares that the radio equipment type [designation of type of radio equipment] is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: [www.qazqa.nl](http://www.qazqa.nl)

Type number remote: RF RC2013 RF frequency range: 2.4GHZ

Transmit power: <0.5dBm Coverage area: 15m

|    |                                                                                                                                                                                                                      |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1  | 15 minutes timing: Turn on the lamp and press the button once. The lamp will flicker once if the setting is successful. Once you set the timing, you can't press the other button or it will cancel the timing mode. |
| 2  | Night Light Mode: Press the button once, the light will switch to warm white night light. Night light cycle is warm white, neutral light, cool white.                                                                |
| 3  | Matching Code: Power on the lamp and long press the button within 3 seconds. The lamp will flicker 3 times if the matching is successful.                                                                            |
| 4  | Brightness+                                                                                                                                                                                                          |
| 5  | CCT-                                                                                                                                                                                                                 |
| 6  | CCT+                                                                                                                                                                                                                 |
| 7  | Brightness-                                                                                                                                                                                                          |
| 8  | Warm white                                                                                                                                                                                                           |
| 9  | Cold white                                                                                                                                                                                                           |
| 10 | 50% Brightness: Press the button once, the brightness will decrease to 50%. Then press the button again, the brightness will be 100%.                                                                                |
| 11 | Neutral light                                                                                                                                                                                                        |
| 12 | Power on                                                                                                                                                                                                             |
| 13 | Power of                                                                                                                                                                                                             |

# Afstandsbediening Instructie

## 1. AFSTANDSBEDIENING

De afstandsbediening die bij de lamp wordt geleverd, is al aangesloten en klaar voor gebruik zodra de batterijen zijn geplaatst.

## 2. Vereenvoudigde conformiteitsverklaring:

Hierbij verklaart FittinQ BV dat het type radioapparatuur [aanduiding van het type radioapparatuur] in overeenstemming is met Richtlijn 2014/53/EU. De

volledige tekst van de EU-conformiteitsverklaring is beschikbaar op het volgende internetadres: [www.qazqa.nl](http://www.qazqa.nl)

Type nummer afstandsbediening: RF RC2013 RF-frequentiebereik: 2,4 GHz

Zendvermogen: <0,5 dBm Bereik: 15 m

|    |                                                                                                                                                                                                                                          |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1  | 15 minuten timing: Zet de lamp aan en druk eenmaal op de knop. De lamp knippert eenmaal als de instelling succesvol is. Als je de timing hebt ingesteld, mag je niet op de andere knop drukken, anders wordt de timingmodus geannuleerd. |
| 2  | Nachtlichtmodus: Druk eenmaal op de knop, het licht schakelt over naar warm wit nachtlicht. De nachtlichtcyclus is warm wit, neutraal licht, koel wit.                                                                                   |
| 3  | Koppelingscode: Schakel de lamp in en houd de knop binnen 3 seconden ingedrukt. Als de koppeling is gelukt, knippert de lamp 3 keer.                                                                                                     |
| 4  | Helderheid+                                                                                                                                                                                                                              |
