2. Indoor use only
3. Operating frequency (maximum transmitted power) 2400MHz -2483.5MHz (20dBm)

MULTI-LANGUAGE MANUAL QR CODE

Please scan the QR code to access the manual in multiple languages.

APP INSTALLATION

Step 2: Scan the given QR code, or download "Smart Life" from the App Store (iOS) or the Google Play Store (Android).

4. Enable Bluetooth and Home Wifi for the device to access your wifi connection for pairing

5. Click "Add a device" or "+" in the top right corner.

6. Click on the Lighting choose "Light Source (Wi-Fi)"

7. Select 2.4GHz Wi-Fi network and enter the password

Step 8:

V-TAC Smart Light Bulb offers two types of pairing modes:

- 1) EZ Mode - Light flashes rapidly
- 2) AP mode - Slow Flash or long brightness

How to enable/reset the smart device into pairing mode - Long press the MIC button till light flashes rapidly, then it will be ready for configuration.

Step 9: Once you have successfully completed step 10, you will be redirected to below page, where the App searches, registers and initializes the device(lamp) (ref image below).

Step 10: Once your device is successfully added, rename the device to your preference.

Step 11: You can now start controlling your device with the App. Tap the device name on the home page to enter the controls and features of the device.

Step 11: After successfully pairing the lamp with the app, you can start controlling multiple features of the lamp through your mobile— on/off switch, changing the colour temperature, timing & schedules, dimming options, and more.

BUTTON OPERATION INSTRUCTIONS

MIC button:

1. Short press: switch to local music scene
 - 1) Rhythm mode "rock" (color changes with music rhythm)
 - 2) Rhythm mode "Jazz" (color changes with music rhythm)
 - 3) Rhythm mode "classic" (color changes with music rhythm)
 - 4) Scroll mode "clockwise" (color moves with music and changes from bottom to top)
 - 5) Scroll mode "anticlockwise" (color moves with music and changes from top to bottom)
 - 6) Energy mode (color moves with music and flickers)
 - 7) Spectrum mode (color moves with music, just like voice recording)
